

# School Library Profiles - 2011-2012 School Year

MILLIKEN MIDDLE SCHOOL  
 P O BOX 339, MILLIKEN, CO 80543  
 Respondent: Janice Stroh

This report covers the research findings from the three Colorado School Library Impact Studies as well as those reported in Fast Facts Nos. 180 and 287 from the Library Research Service, which show that CSAP reading scores increase with improvements in school library programs. Various predictors of academic achievement are reported for the school and its peers. Note that these predictors cannot be explained away by school or community differences. ## Weekly Service Levels

### School Library Visits per Week

|                     | Your School | Middle Schools Med. | Med. for Schools 500-699 Students |
|---------------------|-------------|---------------------|-----------------------------------|
| Ind. Student Visits | 35          | 230                 | 245                               |
| Visits per Student  | 0.06        | 0.37                | 0.38                              |
| Class/Group Visits  | 2           | 15                  | 23                                |

Choosing to visit the school library as an individual, separate from a class visit, is a strong indicator of higher test scores.

When access to school libraries is scheduled flexibly, reading scores improve 13-22%. Flexible scheduling allows students to visit the school library individually.

### School Library Hours Open Per Week

|                                    | Your School |
|------------------------------------|-------------|
| School Hours Open                  | 35.0        |
| Hours Open Before and After School | 0.0         |
